Combined Use of Neurotoxins and Dermal Fillers for Facial Enhancement: Fundamental Techniques

Program Overview
This comprehensive 8.5 hour hands-on aesthetic instructional course details the fundamental cosmetic applications and techniques utilized by respected and expert international injectors of neurotoxins and Dermal Fillers. This course is offered to clinicians having less than 6 months experience routinely injecting any of the FDA approved cosmetic Neurotoxins (BoNTA) or dermal filler products, and who have a desire to expand their skills and increase their aesthetic practice.

Target Audience
This activity has been designed to meet the educational needs of physicians, dentists, physician assistants, nurse practitioners and registered nurses involved in the care of patients undergoing medical aesthetic procedures.

Learning Objectives
Upon completion of the educational activity, participants should be able to:

- Identify and locate key anatomical structures as they apply to the safe and efficacious use of BoNTA and dermal filler injections.
- Select the BoNTA and/or filler product that provides the safest and most efficacious result for the targeted treatment site.
- Implement safe and efficacious injection procedures and be able to recognize and implement appropriate treatment protocol of any potential adverse events.

CME/CE Credit provided by AKH Inc., Advancing Knowledge in Healthcare - Activity is jointly-provided by AKH Inc., Advancing Knowledge in Healthcare and Aesthetic Advancements Institute.

Physicians
This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of AKH Inc., Advancing Knowledge in Healthcare and Aesthetic Advancements Institute.
